TRAINING SERVICES

Recognised in the power tool industry as the leading training provider, Makita are continuously looking to improve and expand the range of courses we offer.

Tailored Training

With our dedicated training centre's located in Milton Keynes Headquarters, London, Glasgow & Wigan Factory Service Centres we can offer training tailored to your specific requirements whether product related on cordless electric tools or petrol products, health and safety based for abrasive wheel or correct and safe use of portable power tools.

Delegate Care

During your time with us at Makita, you will receive the attention of the Makita Training Team at all times.

Attendance Certification

Certificates will be issued to all attending the course and upon completion of the abrasive wheel, correct and safe use and gas nailer courses, a certificate will be issued that is recognised nationally.

Charges

Charges may apply for some training courses undertaken and are payable at the time of booking. Please contact your Makita representative for up to date costs.

LOCATIONS

Makita have a dedicated Training Team with facilities for all your training requirements. At our London, Glasgow, Wigan Factory Service Centres or Milton Keynes head office we offer a wide spectrum of courses ranging from induction courses to the power tool industry and refresher courses for new tools through to Health and Safety focused courses accredited by City & Guilds.

Makita has always had the vision that society and global communities should be able to develop for themselves, and future generations. By providing the tools, Makita is ensuring that anything is possible.

We can be certain of this by the initiatives that guide our business every step of the way. From our regard for the environment, evolving safety measures and innovations in design and manufacturing, we're sure that not only are we contributing to a better today, but investing in a better future.
