TRAINING TAILORED TO YOUR SPECIFIC REQUIREMENTS

01908 211678

training@makitauk.com

Recognised in the power tool industry as the leading training provider, Makita are continuously looking to improve and expand the range of courses we offer.

Tailored Training

With our dedicated training centre's located in Milton Keynes, London, Glasgow & Wigan we can offer training tailored to your specific requirements whether product related on cordless electric tools or petrol products, health and safety based for abrasive wheel or correct and safe use of portable power tools.

Delegate Care

During your time with us at Makita, you will receive the attention of the Makita Training Team at all times.

Certification

Certificates will be issued to all attending courses. Upon completion of the abrasive wheel, correct and safe use, and chainsaw courses, a certificate will be issued that is recognised nationally.

Charges

Charges may apply for some training courses undertaken and are payable at the time of booking. Please contact your Makita representative for up to date costs.

Makita has always had the vision that society and global communities should be able to develop for themselves, and future generations. By providing the tools, Makita is ensuring that anything is possible.

We can be certain of this by the initiatives that guide our business every step of the way. From our regard for the environment, evolving safety measures and innovations in design and manufacturing, we're sure that not only are we contributing to a better today, but investing in a better future.

- 02** - Risk *
- 03** - Hand Arm Vibration Syndrome (HAVS) *
- 04** - P.P.E *
- 05** - Safe operation of hand operated power tools *

- » Electric power tools
- » Petrol products
- » Air tools
- » Gas nailers

* = mandatory

ASSURED

Correct & Safe Use Instructors Course

£410.00 + VAT | 2 Days | 6 Candidates **1 Night Stay**

The course is aimed for the candidate to deliver and run a user course on power tools. On successfully completing the course the candidate will be issued with a City & Guilds assured user certificate and a Makita instructor certificate.

To be an instructor you **MUST** be a competent user.

Chainsaw Maintenance and Cross Cutting Course

£292.00 + VAT | 2 Days | 4 Candidates **1 Night Stay**

This user course will cover preventative maintenance that is carried out daily or at regular intervals by the operator.

1 Day Service Course

FREE | 1 Day | 4 Candidates

This course is designed to be bespoke for authorised service personnel who wish to refresh their knowledge or add further skills and understanding, on new or existing Makita products. It covers all Makita technologies within our cordless, electric, air, or petrol range of products. It is tailored to your needs.

- » Product service module training
- » Special tool requirements
- » Option for bespoke service training
- » Overview of the products
- » Inspection, testing, and servicing
- » Repair manual overview

Contact your local ASM or service team at Makita.

Abrasive Wheel Fitting Course

£59.00 + VAT | ½ Day | 6 Candidates

These courses are designed for all Makita customers and end users to ensure compliance with the training regulations for abrasive wheels in Provisions and Use of Work Equipment Regulations (1998).

- » Fitting of abrasive wheels (types 1, 27, 41, 42) to machines
- » Understanding the label, storage, handling and transportation

Abrasive Wheel Fitting Instructors Course

£292.00 + VAT | 2 Days | 6 Candidates **1 Night Stay**

This course is to train your safety/training officers or technical staff to conduct their own courses and certificate their own employees and customers.

- » To enable the candidate to deliver the Abrasive fitting course (Train the Trainer)
